DECISION

RICK MORGAN :
ALLROC FINE AGGREGATES : 43 CFR 3809 - Surface Management Plan
218 W PAXTON AVE :
SALT LAKE CITY, UT 84101 :

Determination of Financial Guarantee Amount

The Plan of Operation for the Black Rock Project at T. 23 S., R., 10 W., section 33 and assigned Bureau of Land Management (BLM) case file UTU 79872-01 was approved by the Fillmore Field Office (FFO) on September 2, 2004 and amended with a submission on February 2, 2005. The original Plan of Operation was preceded by Exploration Notice UTU 79872.

The original Plan of Operation was for five acres of disturbance. A Plan of Operation amendment increased the approved disturbance acreage to fifteen acres. The Plan is for mining Dolomite by blast, load, and haul and includes a crushing and grinding operation on-site.

Amount of financial Guarantee – This office has reviewed the current financial guarantee and estimated the reclamation cost for the operation and has determined that the current \$9,000.00 being held by the BLM is inadequate. The estimate for reclamation of the currently disturbed area as agreed between BLM and UDOGM is \$26,200.00. The financial guarantee amount required for the total fifteen acres of disturbance proposed for this operation is \$43,800.00. These amounts were based on the operator complying with all applicable operating and reclamation requirements. The financial guarantee amount is hereby set at \$26,200.00 for reclamation of the current disturbance at the Black Rock Mine. You must provide a financial guarantee in this amount using one or more of the acceptable financial guarantee instruments listed under 43 CFR 3809.555 in order to continue operations within the current disturbed footprint. In order to operate and disturb areas beyond the current footprint you must provide a financial guarantee of \$43,800.00.
